MONEY ALLOTTED**FOR THE MILITIA**

Referring to this year's allowance of \$5000 made by the War Department to the National Guard of Hawaii, the notice of which is given in the letter printed below, Governor Carter said yesterday that in a way the money was earned by the militia last year.

It was allotted on the strength of the report made by the inspecting officer upon the N. G. H. encampment of 1906. The men would after the same manner be judged on their merits this year.

Col. Jones stated that the \$4500 would go to meet the expenses of the annual encampment transportation by land and by water, pay and subsistence. The \$500 was for promotion of rifle practice. It might go directly to the preparation of ranges at or near the camp for rifle practice.

The War Department paid last year's camp expenses. Following is the letter to Governor Carter:

Washington, December 22, 1906.

Sir: I have the honor to inform you that in compliance with the request contained in your letter of the 9th ultimo, requisition has this day been made on the Treasury Department for \$5000, to be placed to the official credit of Col. J. W. Jones with the First National Bank of Hawaii, Honolulu, that officer having been designated by you as a disbursing officer of the United States under the provisions of Section 14, Act of January 21, 1903. The funds have been advanced to Col. Jones on his bond dated June 13, 1905, and approved by the Department July 1, 1905.

The amount, \$5000, has been charged to the Treasury's allotment under Section 1661, R. S., as follows:

\$4500 to allotment for arms, equipments and camp purposes.

\$500 to allotment for the promotion of rifle practice.

Total, \$5000.

Very respectfully,

ROBERT SHAW OLIVER,

Asst. Sec. of War.

Hon. G. R. Carter, Governor of Hawaii, Honolulu, H. I.

A HABIT TO BE ENCOURAGED.

The mother who has acquired the habit of keeping on hand a bottle of Chamberlain's Cough Remedy saves herself a great amount of uneasiness and anxiety. Coughs, colds and croup, to which children are susceptible, are quickly cured by its use. It counteracts any tendency of a cold to result in pneumonia, and when given as soon as the first symptoms of croup appear, it will prevent the attack. This remedy contains nothing injurious and mothers give it to little ones with a feeling of perfect security. Sold by Benson, Smith & Co., Ltd., Agents for Hawaii.

COMMERCIAL NEWS

By Daniel Logan.

Without much doing sugar stocks are firmly held, indicating confidence in the future. The price of cane sugar has remained at \$71.25 a ton, though the parity of European beets has fallen one dollar a ton to \$76.40. An article in a late Washington paper, discussing the sugar consumption of the United States, said: "There is little or no probability of any material change in prices for the coming year. The estimates show a probable reduction of about 7 per cent. in the European beet sugar output, which now represents not far from 60 per cent. of the world's total supply. The probability is that this small deficiency will be made up by increase from other sources, but that increase is not at all likely to be large enough to result in price reduction."

As compared with the previous week, sugar stocks have varied but slightly in prices. Most of the changes are upward. More is asked for Kihai with less bid. Onomea, Pioneer and Waialua each ask an advance. Oahu, changed from \$100 to \$20 shares, has advanced. A feature of the Stock Exchange's first session of the year was the reporting by Harry Armitage of the sale of \$62,000 O. R. & L. Co. 6 per cent. bonds at \$103, and \$75,000 Waialua 5 per cent. bonds at 99, an aggregate par value of \$135,000. Sales of stocks and bonds for the week have been as follows:

Brewer & Co., 3 per cent.; Ewa Plantation Co., 1 per cent.; Honomu Sugar Co., 1 1-2 per cent.; Waimanalo Sugar Company, 2 per cent.; Hawaiian Electric Company, 3-4 per cent.; Olowalu Company, 1 per cent.; Honolulu Brewing & Malting Company, 1 per cent.; Inter-Island Steam Navigation Company, 3-4 per cent.; Honolulu Rapid Transit & Land Co., common, 3-4 per cent. quarterly; Haiku Sugar Co., 1 1-2 per cent.; Paia Plantation Co., 1 per cent.; Pioneer Mill Co., 1 per cent.; Hawaiian Com. & Sugar Co., 65c. a share; Paauhau Sugar Plant. Co., 15c. a share; Onomea (S. F.), 50c. a share.

REAL ESTATE.

James F. Morgan yesterday sold at auction the Robertson property, on Union street and Garden lane, area about 6490 square feet, with large two-story building. It was knocked down to the order of August Dreier for \$4000. He also sold a one-sixth interest in land at Kamani under lease of 20 years from Feb. 1, 1901, to Waialua Agricultural Co., this interest yielding \$100 per annum. The area of the land is 83 acres and the one-sixth interest was sold to the order of C. W. Ashford for \$1150.

Deeds lately recorded are as follows: Amos F. Cooke and wife to Chas. M. Cooke, Ltd., King street property, \$5000; Robert W. Shingle to John C. Cook, land and buildings, Manoa road, \$4500; C. H. Durfee and wife to Robert A. Duncan, property at Dominis and Makiki streets, \$2150; Kapiolani Estate, Ltd., to George Tourny, Kukui Place property, \$2905.50.

An additional advance of \$2.50 a thousand in the price of lumber, on account of the San Francisco rebuilding demand, increases the depression in real estate. It is cheaper to buy an old house and lot now than to buy a lot and build.

PUBLIC FINANCES.

With some departments to hear from, Governor Carter finds a net increase in the appropriations requested for the next biennial period of \$578,000. Until the estimates of anticipated revenue are prepared, the adjustment of a balance between Territorial income and expenses can not be undertaken. The Superintendent of Public Works asks for \$70,000 more than his Department was granted for this period. A large proportion of this amount is intended for wharf improvement at Hilo and Hanalepe.

Local contractors are figuring on the construction of the buildings for the United States Leprosarium on Molokai. These comprise about twelve principal structures and the bids are to be opened in Washington on February 1.

The War Department has made an allotment of \$5000 to the National Guard of Hawaii for the expenses of this year's annual encampment and rifle practice. The latest news from Washington is not favorable to a prospect of early construction of fortifications in Hawaii, notwithstanding that the Government has expended a large amount of money for sites therefor.

The County of Oahu had expenditures of \$48,587 in December and a balance of \$13,990 on hand at the end of the month.

PROMOTION AND PROGRESS.

Secretary Wood of the Hawaii Promotion Committee says he feels assured that Honolulu is going to do a big tourist business for the remainder of this winter. The grounds of his sanguine expectation are both the Los Angeles mercantile excursion and the extensive co-operation of large transportation concerns on the mainland in the work of advertising the attractions of Hawaii.

Along with the unwelcome news that the Matson line is not going to carry out the scheme of connecting Portland with island ports comes an item of consolation. This is that a steamship line represented by Col. Beebe, president of a large firm in Portland, will make calls at Portland for Honolulu freight.

Another steamship for the American-Hawaiian Steamship Co., named the Mexican, was launched at San Francisco on December 29.

J. H. Spohn, president and manager of a large commission house bearing his name, arrived from San Francisco on Friday. His object in coming is to contract with the Wahiawa Consolidated Pineapple Co. for the entire output of its cannery for a term of years.

GENERAL REVIEW.

The Kaala Land Co., the Anahulu Land Co., the Helemano Land Co. and the Kawaiola Land Co., all filed articles of association in the Treasurer's office on December 31. The first-named has a capital stock of \$30,000, the others have capitals of \$25,000 each and all have a limit of extension to \$250,000. Shareholders and officers are identical in all, being as follows: Edward D. Tenney, president; W. W. Goodale, vice president; Thos. H. Petrie, secretary; C. H. Atherton, treasurer; W. R. Castle and John R. Galt. The aggregate of shares of all four companies, at \$100 par value each, is distributed as follows: Tenney, trustee, 634; Galt, 187; Atherton, 158; Castle, 40; Goodale, 23; Tenney and Petrie, 4 each. Galt, Goodale, Atherton and Castle convey certain lands in Waialua district to the companies. The charters are for 50 years and their respective purposes are the same as found in the general run of sugar planting and manufacturing company articles. There is a clause in each giving it the privilege to enter into partnership with any other corporation, which indicates the joining of the four companies in an organization like the Maui Agricultural Co. partnership of five planting corporations. The motive of such a combination to develop land within a single area for sugar production lies in the fact that the Organic Act prohibits any corporation from acquiring and holding more than one thousand acres, but has no such restriction upon partnerships.

Charles H. Cooke has been elected a director of the end of 1906 show increased volumes of business and active capital.

JAPAN PREPARES FOR HOSTILITIES

Nathan Bentz, one of the Manchuria

passengers who were here at the time

of the wreck, and who went on to Japan,

has returned to his home in Santa

Barbara and been interviewed by the

Daily Independent. He says that Japan

is undoubtedly preparing for war

with the United States. Speaking of

his outward trip from here on the

Hongkong Maru he says:

"Among the passengers aboard the

Maru was a Mr. Mitsuhashi, who had

been the Japanese minister to the

Netherlands and was returning home

by way of the United States, and, by

the way, since his arrival in Japan

he has been appointed mayor of Yokohama,

or the governor general of that province.

We had a number of conversations

about the relations between Japan and the United States and he

spoke in the most friendly manner of this country. While he was diplomatic

in all his utterances, however, he did not fail to leave the impression that

it was Japan's determination to be the master of the Orient. And while I am

on this subject I may say that back of all the outward expressions of good

will to the United States, the conviction is steadily growing that the next

Japanese war will be with this country.

"For one thing the Japanese people

have never been reconciled to the United States stepping in and taking

Hawaii. There are three times as many

Japs on that island as Americans, and they feel that in some way they have

been cheated out of that important possession. Furthermore they want

the Philippines, for they believe that with the control of the Philippines and

Hawaii they will control the Pacific. They do not hesitate to say that that

is their ultimate object. Since the war with Russia their bump of self-esteem

has increased to a prodigious size and with England back of them they are

ready to undertake anything. The army is being kept up to its efficiency

and the navy is being increased as rapidly as possible. They are building

one ship at the present time which is to be one of the largest and most effective

vessels afloat. It is to be called the Satsuma, after the fighting

clan of that name, and will be of 18,000 tons, or about the same tonnage as the

battleship Dreadnought of the British navy. The Japanese government has

also spent a great deal of money in fortifications and every point of their sea coast is fortified in the most efficient

and modern manner. As an instance of this determination to be the rulers of the Orient I may say that at a banquet I attended, at which were a
